

Help at the Press of a Button

Basic Button

\$41.50 / month

Whether worn around your neck or wrist, the basic button provides help at the press of a button. When the button is pressed, a help call will be placed to our emergency response centre. An Emergency Response associate will assess the situation and send help quickly.

AutoAlert Option

\$56.00 / month

ConnectCare also offers an additional layer of protection with the **AutoAlert** button. In addition to being able to press the button for help at any time, our enhanced AutoAlert button automatically calls for help if a subscriber has fallen and is unable to press the button because they are immobilized or unconscious. The button is small, discreet and provides a direct line to emergency assistance.

All of our buttons are waterproof and can be worn in the bath or shower.

Lock Box

\$30.00

Lock Boxes provide a more secure means of entry to a subscriber's home for Emergency Medical Services, or responders, in case of emergency.
